HATCHERY PRODUCTION

Broiler-type chicks hatched by commercial hatcheries in the United States during 1975 totaled 3,169 million. This was 2 percent more than the 1974 hatch of 3,104 million broilers.

Production of egg-type chicks in 1975 decreased 4 percent to 454 million, from the 1974 hatchery output of 473 million chicks.

Commercial turkey hatcheries produced 137 million poults during 1975, 2 percent below the 1974 hatch of 140 million. Heavy breeds hatched, at 121 million, were down 4 percent but the 16 million light breeds hatched were 10 percent above the 1974 level.
